

Jan. 6, 2022

Note: As of Apr. 23, 2021, the <u>Missouri Energy Bulletin Data Tool</u> provides data previously published in the PDF version of the Missouri Energy Bulletin. The Missouri Department of Natural Resources' Division of Energy will continue to report on prices for E-85 and B-20 twice per month, as well as on propane prices during the non-heating season (April – September).

#### Additional data are available from the following sources:

- Missouri Energy Bulletin Data Tool
- U.S. Energy Information Administration
  - o This Week in Petroleum
  - Weekly Petroleum Status Report
  - Gasoline and Diesel Fuel Update
  - Short-Term Energy Outlook
  - Natural Gas Weekly Update
  - o Weekly Natural Gas Storage Report

- On Jan. 3, Missouri's average retail price for E-85 motor fuel, conventional motor fuel containing 51% to 83% ethanol, was approximately \$2.77 per gallon.
- On Jan. 3, Missouri's surveyed retail price for B-20, diesel fuel containing 6% to 20% biofuel, was \$3.35 per gallon.

  - Natural Gas Weekly Update
  - o Weekly Natural Gas Storage Report

- On Aug. 1, Missouri's average retail price for E-85 motor fuel, conventional motor fuel containing 51% to 83% ethanol, was approximately \$3.30 per gallon.
- On Aug. 1, Missouri's surveyed retail price for B-20, diesel fuel containing 6% to 20% biofuel, was \$4.59 per gallon.

	Propane - Retail Prices (cents per gallon)							
	<u>08-01-22</u>	<u>07-05-22</u>	<u>change</u>	<u>08-02-21</u>	<u>change</u>			
Missouri	222.3	224.7	down 1%	184.3	up 21%			

 On Aug. 1, the average Missouri retail price for residential

propane was approximately \$2.22 per gallon, down 2.4 cents, or 1 percent, in the past month. Approximately 8.8 percent (213,945) of Missouri households use propane to heat their homes. (Data updated from the most recent five-year U.S. Census information.) Propane is also used to support commercial operations, produce goods, dry grain harvests and fuel vehicles.
